

Student Services' Grad Notes

SEPTEMBER 2009

The Class of 2010 must become actively involved in preparing for post-secondary education. Whether the choice is apprenticeship, university, college, work, or a year of travel, decisions being made should be done only after students acquire the information they need. Is university or college a better choice for you, or would a trade suit you better? Where should I go? Live at home or go away? Can I afford to go away? Do I qualify for student loans? How do I obtain scholarships? How do I apply? What marks do I need? Prerequisite Courses?

Student Services provides Nepean students with an abundance of information which will assist in answering these and other questions. Material covering all Canadian and popular American destinations can be found in our resource areas. Another area is dedicated to scholarships.

Please check the **Student Services Links** on our **Nepean High School website** ...

- Campus Tours
- University & College Visits
- Scholarships
- Gradbook Power-Point Presentation

Liaison Officers from universities and colleges will be visiting Nepean over the next few months. This is your chance to meet recruiters face to face. Be sure to pick up their **view books** which will have the essential information you will need. **University and College Information Programs** are a great resource as they feature all Ontario schools under one roof. As well, you can participate in university days and open houses at local schools.

University/College Info. - October

The application process begins with **Grade 12 classroom visits**, and **individual career planning sessions** in October.
